CAREER OBJECTIVE

I am a motivated 3rd-year Software Engineering student passionate about building intuitive, user-centred software solutions on Apple platforms. Through my internship experience, Apple Foundation Program participation, and personal projects, I have developed strong skills in **iOS development, UI/UX design, prototyping, and team collaboration**.

I aim to contribute to **early-stage design exploration, prototyping, and app launch support** at Apps Lab, combining my coding expertise with design sensibility to deliver practical, user-friendly solutions while learning from industry-leading Apple design practices.

EDUCATION

Bachelor of Engineering (Honours)

University of Technology Sydney

Major in Software

Feb 2024 – Dec 2027

(expected)

- Currently achieving a **6.44/ 7 GPA (Distinction Average)**
- **High Distinction** in Mathematics 2, Database Fundamentals, Data Structures and Algorithms, Introduction to Data Analytics
- **Distinction** in Programming 2

EXPERIENCE

Apple Foundation Program Participant

Nov 2025

Apple Foundation Program @ UTS

- Completed a 3-week intensive program on Swift, UI/UX design, prototyping, and pitching.
- Worked in a team of 5 to design and build **an iOS app prototype supporting emotional expression for children**, leading the coding side while collaborating on UX flows, showcasing both development and design leadership.
- Produced interactive prototypes and screen flows using Figma and Swift Playground, learning core iOS development concepts, accessibility, usability, and Apple design principles, directly applicable to Apps Lab projects.
- Participated in iterative testing, feedback sessions, and presentations, strengthening rapid iteration, user testing, and cross-disciplinary collaboration skills.

Graphic Designer

August 2025 – Present

Skeuo Visuals

- Designed digital graphics and marketing content, **developing UI/UX sense transferable to Figma-based prototyping**.
- Managed tasks and deadlines independently, honing project management and iterative design skills.
- Collaborated with 8 team members to refine visuals, strengthening teamwork and feedback handling.

Software Engineer Intern

May 2025 – Aug 2025

Optik Consultancy

- Designed MongoDB structures for **web apps**, gaining backend integration experience useful for functional iOS prototyping.
- Developed a React/JavaScript web app, **building user-friendly interfaces** and supporting **app interaction design**.
- Worked in a team of 6 on requirements, debugging, and milestones, improving iterative development and coordination skills.
- Optimised backend workflows, **achieving 50% efficiency improvement**, showing problem-solving relevant to app performance.

Private Tutor
Alchemy Tuition

Feb 2025 – Present

- Delivered 9 personalised lessons per week, with 80% of students improving grades.
- Simplified complex concepts, enhancing communication and explanation skills valuable for pitching app ideas.
- Managed multiple schedules, developing organisation and prioritisation for app tasks and design iterations.

VOLUNTEER WORK

Graphic Designer
UTSMS

Mar 2025 – Present

- Created digital content, improving engagement by 35%, demonstrating creativity and user-focused design.
- Collaborated with 8 creatives to deliver campaigns on time, reinforcing teamwork and iterative design processes.

PERSONAL PROJECTS

Early Birds Warning App Prototype

Apr 2024

Engineers Without Borders Challenge

- Researched user needs and designed a prototype prioritising clarity and usability, **applying user-centred design principles and rapid prototyping.**
- Collaborated in a team of 6 to present and refine ideas, **gaining feedback iteration and team coordination experience.**

FinancEd – Financial Literacy App Prototype

Jul 2020

Gen E Australian Innovator's Challenge

- Conducted user research to develop intuitive and accessible designs, **demonstrating design thinking and usability focus.**
- Secured 3rd place for delivering a practical, creative solution within tight deadlines, **showcasing problem-solving and rapid execution skills.**

TECHNICAL SKILLS

- **Programming Languages:** Swift, Java, Python, C++, SQL
- **Web Development:** React, JavaScript, REST APIs, iOS development fundamentals
- **UI/UX & Design Tools:** Figma, prototyping, screen flows, information architecture, accessibility
- **Data & AI:** Machine Learning, Data Analysis (pandas, openpyxl)
- **Development Tools:** VS Code, Git, GitHub
- **Operating Systems:** macOS, Windows
- **MS Office:** Word, Excel, PowerPoint, Outlook

AWARDS AND QUALIFICATIONS

- | | |
|--|----------|
| • Apple Foundation Program Alumni | Nov 2025 |
| • Nokia ThriveTech Team Award, Nokia | Aug 2025 |
| • HSC High Achiever Award, Human Appeal | Mar 2024 |
| • HSC Distinguished Achievers | Dec 2023 |
| • Australian Innovators Challenge, 3 rd place | Jul 2020 |
